

TESTING AND INSPECTION OF TRAFFIC SIGNALING DEVICES

SGS

Traffic-flow management is essential to efficient infrastructure operation. We offer testing and inspection of traffic signaling devices to help ensure your traffic signals and management devices are working as efficiently as possible.

WE ARE A NOTIFIED TESTING LABORATORY FOR:

- Variable message signs (VMS) EN 12966
- Signal heads EN 12368
- Traffic signs EN 12899

OUR TESTING AND INSPECTION SERVICES FOR TRAFFIC SIGNAL DEVICES INCLUDE:

- Initial Type Testing (ITT)
- Optical testing
- Physical / mechanical testing
- Durability testing
- CE marking

OUR QUALIFICATIONS

- EN-ISO/IEC 17025:2000
- Notified Testing Laboratory (reg. nr. 1939)
- ISO 9001-2000

ABOUT SGS

SGS is the world's leading inspection, verification, testing and certification company and is recognized as the global benchmark for quality and integrity. With more than 90.000 employees, SGS operates a network of over 2.000 offices and laboratories around the world. This makes us a powerful partner, whether at home or abroad.

WE ARE HAPPY TO ASSIST YOU

If you have any question about testing and inspection requirements for your traffic signals and devices, feel free to contact us for more information.
